

Artsci Alumni | Issue 4

This edition of the McMaster University Arts & Science Alumni Newsletter profiles a series of Program grads who have made headlines this spring. From alumni awards and a special lecture to important environmental work and a display of extreme perseverance, Artsci graduates continue to impress. While you're here, read up on some recent Program highlights, including a new course for study abroad participants, which some of you had a hand in shaping, a unique forestry project taken on by a dozen current students, this year's New World of Work Forum, the Artsci Musical, and more. As always, we encourage you to connect with us and share your stories so we can, in turn, share them with the wider Artsci community. Enjoy Issue 4!

Notices, Reminders, and Events

- In April, Arts & Science student Tory Dockree represented Hamilton at the "Daughters of the Vote" political leadership conference for women aged 18-23. Read about her experience [here](#).
- Arts & Science student Zachary Levine has been running a choir for people with Parkinson's disease, who are experiencing the therapeutic power of singing. Watch a video about it [here](#).
- Madeline Van Impe has joined the Arts & Science team as Program Administrator while Rebecca Bishop is on maternity leave. Madeline comes to us from McMaster's Department of Economics and will be with us until Rebecca returns in May 2020. Stop by to say hello if you're ever on campus!
- Artsci grad Patrick Byrne (2011) has been working with McMaster students — including some from our Program — at CityLAB, a community engagement initiative that positions students to take action on, among other things, climate change and related sustainability challenges. Read more about it [here](#).
- Please continue to visit the [Alumni in the News](#) section of the Artsci website, where you'll find links to articles about or referencing our grads. Recent posts include stories by or featuring Emily Power (2017), Sarah Doyle (2006), Stephanie Bertolo (2018), Alexander Cann (1996), and more.
